Concerning certification of gaming devices, the SFGB only recognizes certificates coming from offices which have an accreditation based on the Order on accreditation and designation (OaccD ; CCFL¹ 946.512) or an equivalent foreign accreditation. The certification's object shall match up the accredited field of expertise. Each certificate shall clearly include the reference to the office of accreditation.

Organisations which consider that they fulfil the requirements and wish to be added to the list of Certification Institutes may send off an application file to the SFGB. For further information regarding this subject please contact:

Jean-Jacques Carron at: ESBK, 3003 Bern, Switzerland,
